Software

Adobe CC (possibly including After Effects, Dreamweaver, Flash, Illustrator, InDesign, Photoshop, and/or Premiere, depending on the project) is required for this class. If you do not have this software it is available for your use in this class in the GBC Elko High Tech Center computer lab or with a virtual computer. Virtual computers require a reliable and fast internet connection, and can be accessed with either a Windows or Mac computer. More information about using a virtual computer will be provided to you.

Additional Materials

You'll need a timer for the exercises in this class. Specialty papers and/or objects (such as bags, containers, pens, tags, etc.) may be used for your final project. You may also need a mounting material which can be heavy cardstock, poster board, foam core board, mat board, or similar.

Catalog Description

Course investigates a range of approaches and strategies to enrich the conceptual and exploratory phases of the design process. Studio projects in digital process drawing and concept rendering.

Course Description

You will develop and refine your working process for solving design problems. Emphasis will be on foundation skills such as creativity, identity development, and typography in a variety of design disciplines such as advertising, branding, and wayfinding.

analyze a given design problem,	Weekly Assignments, Discussions, and Final Project
generate multiple ideas to solve a given design problem,	Weekly Assignments, Discussions, and Final Project
develop and render concepts,	Weekly Assignments and Final Project
describe and implement phases of the design process,	Weekly Assignments, Discussions, and Final Project
solve design problems in a variety of design disciplines, and	Weekly Assignments and Final Project
apply expanded design foundation skills.	Weekly Assignments and Final Project

Methods of Instruction

- Weekly modules in WebCampus. Each module (except for the Week 1 Module) opens on Wednesday at 1:00 p.m. Each module starts with an instructions document for the week. Students must read and follow these instructions; please contact me as soon as possible by WebCampus message, phone, or stop by my office if anything doesn't make sense.
- Reading and hands-on assignments from the textbook, handouts, and online sources; online discussions.
- Assignments are scheduled and due weekly through WebCampus. The Course Schedule is at the end of this syllabus.
- The Final Project at the end of the class is a culmination of techniques learned throughout the semester.

Class Participation

You must log into the WebCampus classroom at least a couple of times per week to demonstrate “attendance” in the class. You are expected to read the weekly instructions posted by each Wednesday afternoon; to read, post, and reply to discussion topics; and to submit assignments on time.

“An instructor may drop any student who has excessive unexcused absences. An instructor has the sole right to excuse an absence, assign makeup work, or apply a punitive grading policy as established by the instructor’s syllabus for the class. Specifically, you are expected to comply with the attendance policy set by each instructor.”

(p. 72 of the 2017-2018 GBC General Catalog)

If, for some reason, you feel that you cannot complete the course, you must officially withdraw from the class by the course drop deadline (Thursday, November 2, 2017) by contacting Admissions & Records at 753-2102, and completing the Course Withdraw Form.

- Officially withdrawing results in a "W" on your grade report. The "W" is not used in computing your cumulative GPA; it will appear on your transcript and be permanent.
- If you do not officially withdraw, your grade will be based on the work you have completed averaged with zeros for work you have not completed.

Course Grade

Discussions	30%
Weekly Assignments	50%
Final Project	20%

Discussions

- Discussion postings are evaluated using a “Discussion Topics Rubric,” and each graded topic is worth 100 points.
- Your first discussion post each week is usually due by 8:00 pm Sunday. You must also make at least two additional posts replying to other students’ posts by the weekly discussion topic due date and time, which is usually 1:00 pm Wednesday

Weekly Assignments

- Each weekly assignment has its own handout giving the specifics of the assignment; each graded weekly assignment is worth 100 points.
- No late work is accepted, unless it is approved in writing by the instructor by 5:00 p.m. PST the day prior to the assignment’s due date. For example, if an assignment is due on Wednesday, written approval to submit the assignment late must be given by the instructor to the student by 5:00 p.m. PST on Tuesday.

Details about the **Final Project** will be provided during the 13th week of class.

If you have any questions about any of the assignments, please let me know—before they’re due!

Course Grade, continued

The final course grade is calculated on a percentage scale and then recorded as the corresponding grade point value and letter grade as shown below.

F	Demonstrates Incompetence	<ul style="list-style-type: none"> • Work has failed to meet the minimum requirement for the course. • Student may not be adequately prepared for the courses which follow.

Grade Appeals

If a student has concerns or complaints about grading, s/he should follow the steps of the published procedures as stated beginning on page 75 in the 2017-2018 GBC General Catalog.

Class Work

Students should keep their graded work until they know their final course grade at the end of the semester in case there is any discrepancy in grades.

Student Conduct and Academic Honesty

Students are expected to conduct themselves in accordance with college standards. GBC's Student Conduct Policy begins on page 41 of the 2017-2018 GBC General Catalog.

Students are expected to be academically honest. GBC's Academic Honesty section of the 2017-2018 General Catalog is on page 28.

Accommodations for Students with Disabilities

Great Basin College is committed to providing equal educational opportunities to qualified students with disabilities in accordance with state and federal laws and regulations, including the Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act of 1973. A qualified student must furnish current verification of disability. The Students with Disabilities Office, located in Berg Hall, will assist qualified students with disabilities in securing the appropriate and reasonable accommodations, auxiliary aids, and services. For more information or further assistance, please call 775.753.2271.

Student Computer Lab Use

You may use a GBC computer lab for this class. The GBC computer labs are provided as a service to students, and use of a computer lab is a privilege, not a right. Users must refrain from doing anything that annoys others or disrupts their education. The computer lab cannot be used for non-college work.

Lab Rules

1. Computer lab use is restricted to authorized individuals: students, faculty, and staff with appropriate logins.
2. Logins are issued to individual users and ARE NOT to be used by anyone else.
3. Food and drink are prohibited while in a computer lab. Items may be left on a table outside of a lab.
4. Children are allowed in the labs only if they are enrolled in a course offered specifically for them.
5. Internet access is to be used for class-related work only. Internet activities will be randomly monitored.
6. Computer labs are for students to use for class-related work only.
7. Copying of ANY software is prohibited without prior authorization.
8. No ringing cell phones in the labs.  ⇐

Your Computer's Security

For this class you may be online with your computer. Your computer's security is your responsibility. I strongly recommend that you have security software installed on your computer and that you keep it updated. There are many options available; you might want to do online research to determine what security software is best for you. A good place to start your research is to type "security software" into Google or another search engine.
